Lighter Notes...

With the constant changes in incentives these days, it seems as if we should contemplate changing the “Lighter Notes” to “Focus Notes.” Once again, Focus on Energy has decided to sweeten the pot, with additional savings for a limited time.

From now until September 30, 2009, you can enjoy additional cash-back on several of Focus on Energy’s most popular programs. For instance, the incentive to switch out 400 watt HID high-bay fixtures to fluorescent equipment using less than 250 watts has increased from \$60 to \$90. T12 to T8 replacements have increased as well, adding anywhere from \$2 to \$8 per fixture, depending on lamp combination. Additional bonuses also apply to occupancy sensor applications.

Let the lighting team at Hein Electric Supply Company show you how the program works and how you can be a hero with your customer. Give us a call, we’d be happy to work with you.

Until next month,

Ron Reinowski

Hein Associate Highlight

Tom Zalewski - Customer Service and Internal Support

When Tom Zalewski started in the Shipping Department for Hein Electric Supply, Pabst Brewery was still brewing its own beer and the Milwaukee Brewers played at County Stadium. Twenty-five years later, Tom now works in the pricing department as customer service and internal support.

Tom grew up in Milwaukee, and currently lives in Franklin with his wife, Linda. They have two daughters, Kristin, 24, who recently graduated with an Accounting degree and is currently working on her Master’s Degree, and Karie, 21, who is in her 3rd year of Nursing at Alverno.

Tom plays golf, watches Brewers games, and raises thoroughbred jackalopes in his spare time. Tom’s favorite part about working at Hein is interacting with customers.
